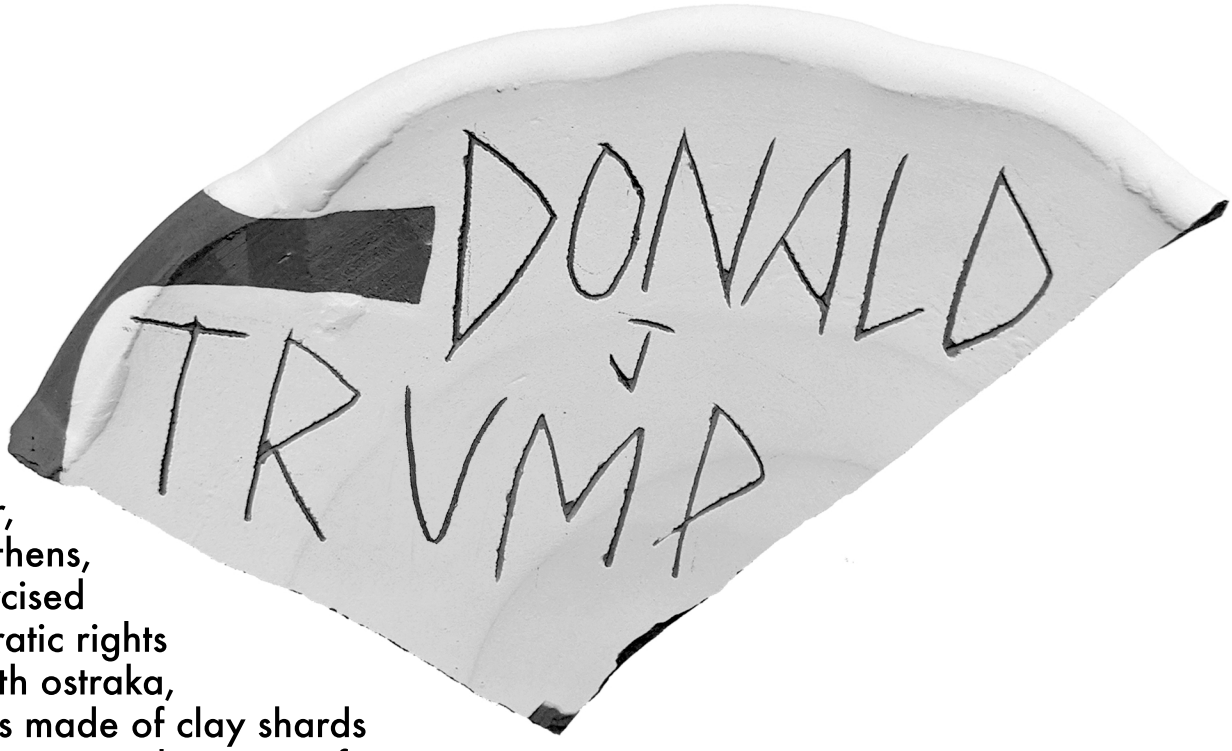
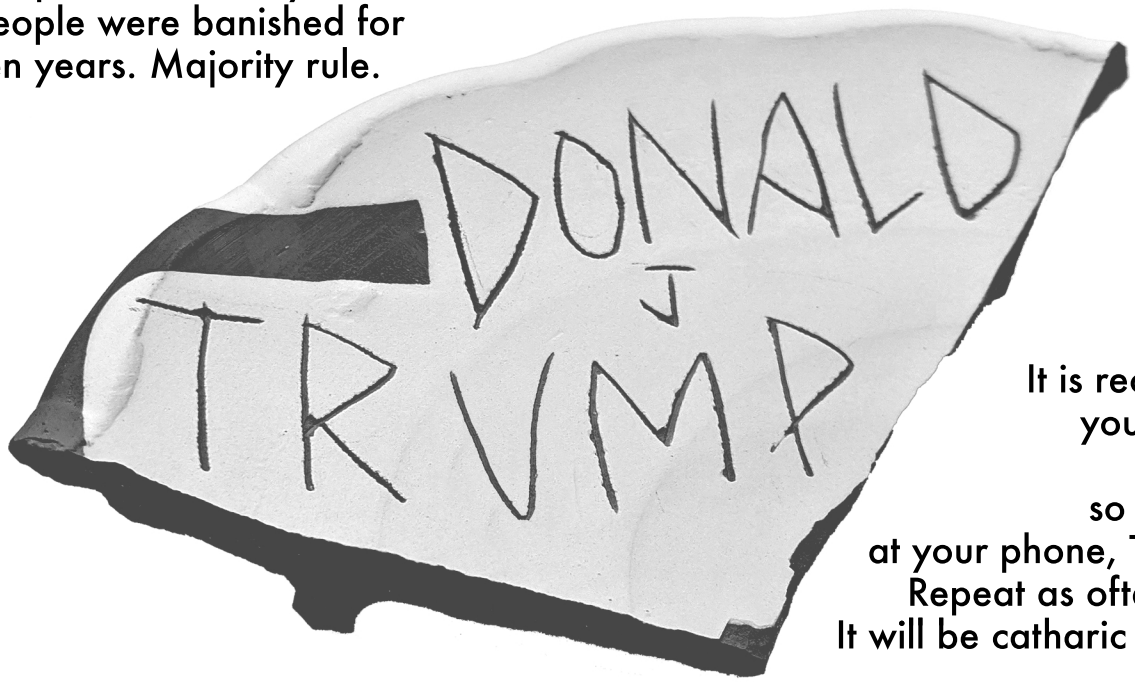
AN OSTRAKA FOR DONALD J TRUMP



Once a year,
in ancient Athens,
citizens exercised
their democratic rights
by voting with ostraka,
voting tokens made of clay shards
on which they wrote the name of
the person that they wished to cast out.
People were banished for
ten years. Majority rule.



It is recommended that
you crumple up this
faux ostraka
so you can throw it
at your phone, TV, or computer.
Repeat as often as necessary.
It will be catharic and it will work.
